RECENT JOBS

- DALUMI GROUP, DIAMOND JEWELRY E-COMMERCE (2018-NOW)**
PHP FULL STACK DEVELOPER

Dalumi is A leading player in the global diamond and jewelry industry, in order to get to online marketing they searched for a web solution and I had the opportunity to work with a development team of 4 developers, build and deliver web solutions according to company needs with cutting edge web technologies focusing on UI/UX, maintaining the legacy code.

- Technology that we used:

Servers:	AWS Elastic Beanstalk (AWS Linux).
Databases:	MYSQL, MSSQL.
PHP Frameworks:	Laravel5.7, Laravel5.8.
Server-side coding:	PHP5, PHP7.
Client side development:	

VueJS, Nuxt.js, AngularJS1.6, Vuex, Typescript, JS, JQUERY, Bootstrap3/4, HTML, CSS, AJAX.
Version control: Mercurial And Git

EDUCATION

- HACKERU COMMUNITY COLLEGE (2017-2018)**
PHP Full Stack Course

Learned the core of php and its advanced OOP while also learning to build front end like html,css, js and angular which gave me a solid base to learn laravel and build my final project.

The full list of languages,libraries and frameworks i'm familiar with:
